## REPUBLICAN COUNTY CONVENTION.

A Republican County Convention will be held at the Court House, in the City of Janesville, on the 28th day of August, 1878, at 12 o'clock, noon, nominate candidates for county offices. Under the new apportionment made by direction of the last County Convention, the several towns and wards will be entitled to delegates as follows: Ayon, Beloit, Bradford, Center, Harmony, Janesville, Johnson, La Prairie, Lima, Magnolia, Newark, Plymouth, Porter, Rock, Spring Valley, Tarry, the Second, Third and Fourth wards of the City of Beloit, and Fifth ward of the City of Janesville, two each. The First ward of the City of Beloit, three. Clinton, Fulton, Union, Milton, and the Second and Third wards of the City of Janesville, four each. The First and Fourth wards of the City of Janesville, five each.

H. STEBBINS,  
County Committee.

## THE OUTLOOK IN THE STATE.

Judging from the reports which are being received daily from nearly all parts of the State, there is a healthy condition of Republican sentiment in Wisconsin. All signs indicate that the Republicans are not only united and harmonious, but that they are well organized for a vigorous campaign. The Address published by the State Central Committee is the platform of the party. Upon it the Republicans can stand as one man, and by it, and through an energetic policy and constant and faithful work, they will send six members to Congress and elect a Republican Legislature. There is no division of sentiment in the party on the financial question and none whatever as regards the importance of the cry of the "Solid South." On the other hand, the Democrats are drifting about without a leader and without a policy. They are halting between two opinions, not knowing whether to sink or swim, survive or perish, with the Greenbackers, or bravely go down hitched to the tail of no other party. This indecision is certainly working against them, because the people have no confidence in any party or in any political leaders which have no rule of action or no firm, fixed policy by which to be guided. Men who have not the independence to maintain gold, mainly principles, principles which are righteous and must prevail, are not worthy of the respect and the abiding faith of intelligent voters. For this reason the Democratic party is weak and shiftless in the North. It is only strong in the South because it owns and controls more rifles, shot-guns, and bowie knives than the Republicans. The inability of the Democrats to make their calling and election sure in the North, is one of the reasons that in Ohio, and several other States, they are contracting with the Nationals for support. Thurman saw no hope of reaching the Presidency through a sound and healthful financial policy, and so he closes his eyes on his past record and embraces inflation. In Wisconsin and other States, the Republicans are true as steel to not only a paper money which shall circulate with the prestige that it is as good as gold, but they are indivisible on the question that every free man, whether he be white or black, Republican or Democrat, or whether he lives in Wisconsin or Mississippi, shall have the right to walk to the polls, deposit the ballot of his own choice, without a shot-gun or a bowie knife staring him in the face.

Upon these questions there is no division of sentiment among the Republicans of Wisconsin. They stand by the principles which will never fail to be right, and on which they will win success.

**DENNIS KEARNEY.**

This young man who prides himself in being a "sandy" orator, an ex-dryman, and a member of the hard working class, is fast losing his popularity and influence. He came from California three weeks ago, inflated with the idea that he could inaugurate a political revolution on the East side of the Mississippi. Pretending to represent the cause of the workingman, he won considerable success in San Francisco, where only a year ago he was a common dryman. His theory is that the workingmen should rise up as one man, overturn the Government, make way for those holding office, seize the United States bonds and destroy them, drive bankers out of existence, annihilate the land owners, and divide the farms among the workingmen, that there should be no President, no Senate, no House of Representatives, but that the workingmen should "run things" as they pleased. On this platform at the recent election in California, Kearney caused to be elected to the Constitutional convention some thirty members, nineteen of whom can not read or write. Battered and dazed by this "brilliant" success, he crossed the continent in a palace car, hired by the poor workingmen, and decided to begin his revolutionary work in Boston. He appeared at Faneuil hall in a blue shirt, coat off, and his pantaloons tied about his waist. His audience numbered over three thousand—largely made up of the class he sought to delude. Such profanity and vulgarity were never before heard in that historic hall. He appealed to the lowest passions of those before him, and his utterances were so foul-mouthed that the intelligent workingmen quit Faneuil hall in disgust. At Lowell, the other day, he made a speech, to a crowd of men and women, which was so vulgar that Boston papers could not publish it. Not meet-

ing with success in Massachusetts, Kearney transferred his operations to the West, and on Saturday arrived at Indianapolis. The Labor-Reformers and Communists of that city gave him a hearty welcome at the depot when he arrived. Sunday was to be set apart for the great day on which the immense parade was to take place, and when Kearney was to make his set speech, and stir the multitude. When Sunday came, and the time arrived to form the procession, not a hundred persons were found in the ranks, and when the grove was reached where the speaking was to take place, about 300 men and boys had collected to hear the California agitator. His speech was as big a failure as the demonstrations. The people became disgusted with him and gave him no inspiration by their applause. Kearney has run his race. His violence and blather-skeism can never capture the intelligent and industrious workmen of the West.

A report is afloat that General Sherman is involved in great domestic trouble on account of Mrs. Sherman's strong belief in Catholicism. He is an unrelenting foe of that church, while his wife is the "most active and ardent lay-worker the Pope has in America." It is stated that her home in St. Louis is the headquarters of all the migratory priests of America, and she is admitted to nearly all the confidences of the church, and Bishops and Archbishops go to her for advice. Shortly before Pius Ninth died, he sent her a rosary of solid gold, with a fragment of the "true cross" set in the crucifix as a gem. Her name is as familiar in Rome as that of St. Agatha, and in the councils of the church in Europe she stands high, though she has never set foot on European soil. The old General is a firm adherent of Catholics and priests. He cannot look upon them with the least degree of allowance. He won't live in a house with them, and Mrs. Sherman is so devoted to her church that she can't live without them. Then his eldest son, whom the General idolizes, was intended for the bar by the father. He was educated at great expense and with special reference for the legal profession, and now that he intends to abandon the law to become a priest, and will shortly enter a monastery in Europe, the father is grieved beyond description. He curses the church which has robbed him of his son, and refuses to be comforted. He is seldom with his family, they residing in St. Louis, while the army headquarters are in Washington. He has lately gone to New Mexico for no other purpose than to free, if possible, his mind of his domestic trouble.

Before Thurman was a candidate for the Presidency, he said in the Senate of the United States: "It means that so long as I shall live, and possibly long after I shall be laid in the grave, this people shall have nothing but an irredeemable paper currency with which to transact their business, that currency which has been well described as the most effective invention that ever the wit of man devised to 'fertilize the rich man's field at the expense of the poor man's brow.' I will have nothing to do with it, sir." Now that he is a candidate for the Presidency, and bids for the Greenback vote of Ohio and other States, he does believe in that currency which will "fertilize the rich man's field, at the expense of the poor man's brow."

We have it from good authority that Hon. L. B. Caswell will be renominated for Congress in the Second District. He is a strong member, and a strong man, and will carry the District both against the Democrats and the Greenbackers. All the Republicans in that District are unanimous for Caswell's renomination. He has not only served them well but he is personally very strong. His renomination and election will be a credit to the District and the State.

In the Fifteenth Ohio Congressional District, the Democratic convention balloted 1,355 times before a nomination was made. This is the greatest number of ballots ever known to be taken in any convention. Captain Hawk, of the Freeport District, was nominated on the 51th ballot.

The Democratic Congressional Convention for the Second District will be held at Madison on Thursday, September 12th, two days after the Republicans make their nomination. The action of that Convention is still in doubt.

Among the questions which will be voted for at the coming election is, whether or not the 350 millions of rebel claims shall be allowed by the next Congress. The South demanded at a single session over 300 millions.

The report that Miss Medora Clark, the Wisconsin poetess, was killed near Chyenne, last week, is not true. A Miss Clark was accidentally killed, as telegraphed, but she was no relation to Medora.

The Milwaukee News calls Thurman's Greenback speech an admirable one. So the News has abandoned its former principles, and has been seduced by the fiat money influence.

According to some of the Eastern papers the main issue in Wisconsin will be the death of the eagle "Old Abe." We don't think the question will absorb all others.

The Republicans have a majority of the votes in the South, but the Democrats have a majority of rifles and shot-guns, and hence can carry the election.

Chairman Rublee has returned to Madison, and will remain there during the campaign, and attend closely to the duties of the office.

The yellow fever is still onward with its deadly work. New cases are rapidly increasing, and deaths are fast multiplying.

GRENADE, Miss, Aug. 19.—The mortality is terrible. The scene cannot be described. Dr. Mandeville, an experienced yellow fever physician, says he never saw anything that would begin to compare with it; it is fearful beyond description. The total deaths are over 70, with no abatement, and no hopeful cases reported. Several deaths have just been reported. It seems that none are to be spared.

NEW ORLEANS, August 19.—In response to an appeal, yesterday, the Howard Association sent twelve more yellow-fever nurses to Grenada.

FOUR of the nurses sent by the Howard Association to Grenada have the fever.

VICKSBURG, August 19.—The Health Officer is unable to give the official figures, but estimates 100 cases and increasing rapidly. There were four interments to-day from yellow fever, and 18 deaths to date. The City Council abolished the quarantine this evening.

## BUTLER AND KEARNEY.

**The California Orator will not Return to the Bay State to Help Butler.**

WASHINGTON, Aug. 19.—The latest advices from Massachusetts indicate the probability that Dennis Kearney will not return to Massachusetts to advocate the election of General Butler to the Governorship. The Butler people have discovered that they have made a fatal mistake in the temper of the working people of Massachusetts. Butler assumed that the masses were ignorant and bigoted, and could be influenced by demagogical trickery rather than by argument. His own political life and methods have led to this conclusion, but protests from representative workmen in all sections of the State have rapidly come up against the Communism and blasphemy of Kearney, and it is well understood in inside circles that Butler no longer wishes to pool issues with Kearney, and that Butler, transposing Kearney's own catchwords, has issued the edict "Kearney must go."

## THE CABINET.

**Their Contributions to the Republican Campaign Fund.**

WASHINGTON, Aug. 19.—Each of the members of the Cabinet has contributed to the campaign fund, but the amounts given are not known definitely. Postmaster General Key's mite is said to have been given with an injunction not to let the newspapers know about it. In conversation with Assistant Postmaster General Brady, Judge Key remarked that he felt that he ought to contribute a little money to "help the good cause," as he described it, and, handing Mr. Brady \$100, requested the latter to place it where it will do the most good.

## SHYLOCK.

**Ohio Banks Will Only Take Trade Dollars at a Discount.**

CINCINNATI, O., Aug. 19.—Cincinnati banks refused to-day to receive trade dollars except at a discount of five per cent. It is understood that to-morrow they will pay only 90 cents for them. Similar action has already been taken by country banks in Ohio and Indiana. This course has caused a considerable stir in business circles, as the trade dollar is in general circulation.

## PRIVILEGE.

**Every Voter in the Departments Will be Allowed to go Home to Vote.**

WASHINGTON, Aug. 19.—The National Republican states authoritatively that voters in the Departments will be granted the usual leaves of absence to attend the elections in their several States, and further, that the President has contributed to the Republican campaign fund ever since he came into public life. Last year he contributed \$500 to the Ohio fund, and this year he has done better, and is not yet done contributing. Every member of the Cabinet has also contributed.

## HORACE RUBLEE.

**His Return to Madison—The Campaign—Republican Prospects.**

MADISON, August 19.—The Hon. Horace Rublee has returned to the city after a ten

days' visit to relations in Sheboygan, and is entering upon the actual business of the campaign. Mr. Rublee speaks confidently of Republican prospects, and finds great unanimity of indorsement of the Central Committee's address throughout the State.

## STORM AND FLOOD.

**Muscatine, Iowa, Visited By a Terrible Rainstorm—Two Brick Houses Carried Away.**

MUSCATINE, Aug. 20 1 p. m.—A terrible rainstorm, with heavy thunder and lightning, has prevailed since 8 o'clock. The city is impassable, torrents running down the streets into three parts. In this part of the city the flood has carried away the end of Fulliman's three-story brick drug store and the corner of Hoeble's three-story brick store, and the walls are still falling. Several other buildings are threatened. Sidewalks, sewers, and gutters are demolished. The fishing steamer Favorite, the yacht Enlymond, and a large number of boats have broken drift. Several families were rescued, and the damage must be great in the upper portion of the city. It is still raining hard.

## State Board of Health and Mill Dams.

Editor of State Journal:—We have read an article in your issue of the 12th under the signature of J. T. Boyce, Secretary of the State Board of Health, first published in the Appleton Post, in which he quotes a part of a letter addressed by us to him, in answer to certain interrogatories addressed to us by said Board through their Secretary, which he claims proves we did not then object to these questions. In reply we in our innocence then supposed that the Board were seeking information in reference to the sanitary condition of the country above and bordering on our mill dam, and although we could not perceive what connection the authority under which our dam was constructed, its height, the number of times it has been raised, the land it overlies, and the extent that private rights have been effected, has with the subject, we supposed they were investigating, i. e., the sanitary condition of the country bordering on our dam; still, we answered them fully on all points, and referred them to eminent physicians who had practiced in the territory complained of continually for over thirty years past, which we supposed would be satisfactory to prove our statements "that there has been no unusual sickness, the only question they were authorized to investigate; and we offered to furnish additional evidence if required, that our dam did not injuriously affect the health of the inhabitants living in the vicinity, and stated our belief that the whole proceeding was a drive at our dam by the swamp land owners above it, using the State Board of Health as a lever; but on reception of a second letter from the Board, through their Secretary, (the answer to which he does not publish,) which we quote:

APPLETON, Wis., June 21, 1878.

Messrs. N. S. Green & Son, Milford, Wis:

GENTLEMEN—Thanking you for your courteous reply to my former communication, I write again to ask if the opinion therein given, that but a small amount of overlandage has been occasioned by the dam at Milford, and that no proprietary rights are affected thereby, is based upon any reliable surveys of the country by which its present condition may be compared with its condition anterior to the construction of the dam in question; and, if so, if you will put this Board in possession of copies of such survey.

If there has been no such survey, would it not be wise to have one made at this time by some competent engineer, to be mutually agreed upon?

It would seem to us that, if the fact can be shown, as you believe it can, that no overlandage has been caused by the dam, and that no considerable tract of country would be drained by its removal, then the complaint of the petitioners would be shown to have no foundation, and whatever unusual sickness there may be in this region, if any be proven, could not be attributed to this cause.

In the hope to reach the facts in the case in the most expeditious and just manner, this Board would recommend, both to your selves and to the petitioners, that such survey be had.

In referring to the height of the dam, will you kindly explain to me what are the measurements in taking the height of a dam, and also what we are to understand by a head of water as to height.

The Board will be glad to receive any communication you may be pleased to make them on this subject.

Very Respectfully,

J. T. REEVE, Secretary.

We found, as we thought, an utter ignoring of the sanitary part of the investigation, but a determination to investigate our legal rights to maintain a dam, and the extent that we damaged land by doing so. And when we learned after the meeting of the Board at Watertown, that the Secretary had gone out of his way a number of miles to examine one of the main witnesses, that the swamp land owners depend on in a suit for fowage against us (if they determine to commence one), and that another member of the Board had applied to an eminent engineer to survey the dam and the country above it for a number of miles, and that the line of investigation of complaints made against our dam has been duly considered by them, we should have nothing to complain of.

N. S. GREEN & SON.

## A Healthy Body and a Clear Head.

If indigestion, constipation and biliousness torment the body, the head cannot be clear. These disorders react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alternative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and urinary passages, and exerts a powerfully invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep

promoter the Bitters is unrivalled; it mitigates the infirmities of age, relieves the ailments peculiar to the gentler sex, arrests premature decay, and builds up an enfeebled physique.

The Journal of last meeting was read and approved.

The application and bond of J. S. Wulf, for a liquor license, was referred to the License Committee.

The Clerk read an extraordinary batch of miscellaneous bills against the various funds. The number of bills undoubtedly exceeded that of any previous meeting of the City Fathers, some of them being very unique in form. For instance, the majority of the bills for ward work were made out in this wise:

City of Janesville, 7th ward. To John Roe for 25 days work \$25.75.

Correct. — Alderman.

The Mayor took occasion, when referring the bills, to state that many of the bills were not properly made out, that the date should be given so that the city would not be compelled to pay the same bills again.

Ald. Davies.—I do not understand that it is necessary to particularize the day on which the work was done, as long as the Aldermen knows the amount of work has been performed.

Mayor Norcross.—If the Aldermen sold five cents' worth of tobacco to a customer and charged it, he would put down the date to avoid any dispute.

Again the bills showed, perhaps, the magnitude of the thistle crop in the various wards, the fourth taking the lead, it requiring a man ten days to harvest the crop, closely followed by the first with a six days' harvest, and other smaller patches in the other wards. The bills were referred.

Ald. Davies, from the Judiciary Committee, reported back the Police Justice's report as correct. Filed.

Also the bill of Ex-Police Justice Patton, \$27.50, as correct. Referred to Finance Committee.

Ald. Hutchinson, from the License Committee, reported in favor of the transfer of M. Ehringer's license to G. C. Fritz. Concurred in.

Ald. Vankirk, from the special committee, reported in favor of allowing Ald. Davies' bill for expenses incurred in the trip to Ottumwa. Adopted.

Ald. Church, from the special committee to whom was referred the proposition to purchase teams for the Fire Department, reported in favor of the immediate purchase of teams by the city. The report was accepted.

Ald. McKinney moved that the Committee on Fire Department be instructed to purchase four suitable horses for use in the fire department.

Ald. Davies thought it better that the Council should fully consider the matter, and not act too hastily. After a few random remarks from several Aldermen, the further consideration of the question was, on motion of Ald. McKinney, postponed until next meeting.

Ald. McKinney introduced an order instructing the City Engineer to report a grade for South Third street, between South 2d and South 3d streets. This created quite a little discussion, as to who paid for the services of the Engineer, the street, ward of the city, and finally action was postponed.

Ald. Vankirk, an order, instructing the City Engineer to place the grade of North Third street, adopted March, 1878, on file in the Clerk's office. Adopted.

Ald. McKinney, from the Park Committee, presented plans and specifications for improvements in the Court House Park. Adopted and filed.

The Clerk was then directed to advertise for bids for the proposed work, limiting the expense to \$350. The bids to be acted upon at the next meeting.

The Mayor read a petition from Water Witch Engine Co. No. 2, asking permission to take their engine to Chicago on the September 4th and 5th to contest for the prizes offered by the National Firemen's Tournament, and an accompanying explanation from Chief Engineer Young, recommending that permission be granted.

Ald. Vankirk moved that the request be granted.

Several Aldermen expressed their willingness to vote permission, but thought the property owners would object to letting this engine go out of the city.

Ald. McKinney moved that when the council adjourn it be until to-morrow (Tuesday) evening, and that the further consideration of the petition be postponed until then, that the Aldermen might have an opportunity to hear from the property owners. Adopted.

Ald. Davies moved that the Chief Engineer circulate a petition on Main and Milwaukee streets, asking the prominent property owners to sign for or against the engine leaving the city. Adopted.

Ald. Fitzgibbon had something to say about dogs, and wanted the council to proclaim a wholesale massacre of the canine family, but on the ayes and noes being called the result was, ayes 1, noes 8.

Ald. Lawrence, from the Finance Committee, reported in favor of allowing sundry bills which was concurred in.

The council adjourned.

**HOWE'S GREAT LONDON SHOW.**

Of this famous exhibition which is to be here August 28th, the Iowa State Register says, in its issue of Sunday, July 29th:

London Show has faithfully fulfilled every promise made in its advertisements of all kinds. The fine street parade in the morning, the grand pageant, while the novelty of the Tally-ho coach caught all eyes. At the afternoon performance fully 3,500 people were under the canvas, and in the evening at least 8,000 were present, extra seats being put in clear down to the ring. Everything about the show is as perfect as it is well-branded. "First-class" No. 1. The costumes of the finest texture and glittering with ornaments—the machinery new, unique and clean—the animals of the finest breeds, and sleek, fat, well-trained—and the artists of the ring all magnificent specimens of handsome physique, good muscle, extraordinary agility and excellence in their different roles, two-thirds of whom according to the best judges of this peculiar profession, ranking first in their line in the world.

## TROUBLE IN THE FAMILY.

**A Husband Gives to His Wife a Written Confession of his Infidelity. Divorce Suit Among the Prominent.**

Another sad case of domestic infidelity has been the subject of glib talk among those cognizant of the circumstances, as all parties concerned, are of prominent standing. It appears from the facts, as nearly as they can be ascertained, that the wife in question has become satisfied in her own mind, at least, that her husband has not been as faithful loving and true as was becoming to one who was bound by the solemn promises of the marriage ceremony.

It is claimed that she has in her possession letters, and other evidences in black and white, showing that she did not monopolize his affections by any means. It is said that when she had accumulated these evidences she charged him with infidelity and he is said to have broken down completely, owned his faults, and signed a confession in full, which was witnessed by several.

The husband supposed the affair was then quieted but the wife had already made up her mind not to continue longer to live with him. Accordingly yesterday after her husband had gone to his business, some of her family friends who live in Harmony, came here and took her and her personal property, together with their only child, a boy of five years, and they are now snugly ensconced in the father's domicile. In the afternoon the husband was surprised at having papers served upon him, as preliminary to a divorce. On going home he found his wife gone, and the neighbors told him that she and the child had left him and gone to her father's home. The husband drove out there but was refused admission. He promised to give up all that he possessed to her, if her father would return to town with him and get the papers made out. Her father came in with him, but the husband soon after reaching the city fell into a faint, followed by another, and was soon in such a condition physically, that the business was necessarily postponed. He seemed sadly broken down on account of the family trouble, and during the night was obliged to be cared for carefully. This morning he was some better, but still is not in the best of conditions. He was however able to make out the necessary papers for the conveyance of his property to his wife. Such seem to be the unvarnished facts in the matter.

**BURGLARS CAPTURED.**

**A Lot of Silverware Turned Up—Who is the Owner.**

The officers to-day made a haul of silverware which was in the possession of known thieves, and which was being offered for sale. It is evidently stolen and now the officers are anxious to find out whose house has been burglarized.

The goods consist of 12 solid silver spoons marked "Hobbs", 1 marked "Mother", 10 solid silver spoons marked "Rice", a silver napkin ring and a silver butter knife, neither of which is marked. Two of the supposed gang were to-day captured by officers Keating and Marsh.

One of them has been recognized as "Scratchy" Nash, a fellow whose name has often graced the criminal records of this county, and who is known generally as a "crook." It is expected that other developments will follow.

**Corn Bread.**

If you want delicious corn bread, make it with Dr. Price's Cream Baking Powder, and you will be delighted with it. Breakfasting on corn bread made with Dr. Price's Cream Baking Powder, will not leave a heavy, leaden feeling in the stomach, so often felt after the use of saleratus and adulterated baking powders.

**A CARD.**

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. J. M. L. LAMM, Station D, Bible House New York City.

**An Unpleasant Truth.**

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's August Flower will cure you of Liver Complaint, or Dys-

pepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. decided-weed

**Fever and Ague Cured for 50 Cents.**

Dr. Swayne's Fever and Ague Pills, (without calomel or quinine), are a quick and sure cure in every case for ague and fever, intermittent and remittent fever, and all diseases having their origin from Malaria. They are a great tonic and preventive as well as cure of all complaints peculiar to malarious, m. s. and malarial districts. They act on the liver, and brace up the system to a vigorous healthy condition. Notwithstanding these pills are sold for one-half the price that other ague cures are sold for, yet we will warrant them as effective in all cases as any pills or mixture, let the price or compound be what they may; and being entirely free from all minerals, their use leaves no bad effects, as in the case of many other remedies. Send by mail to any address on receipt of price, (in currency or postage stamps), 50 cents a box, three boxes \$1.25, six boxes \$2.50. Address letters, Dr. Swayne & Son 33 North Sixth St., Philadelphia.

**Beyond the Reach of Human Skill.**

The power to restore the hair to bald heads when the bulbs at the roots are destroyed by age or disease, but there are doubtless many persons becoming bald, whose hair by careful attention might be restored to its original luxuriance and beauty. Parker's Hair Balsam is an elegant preparation, designed to meet the public want for a harmless hair dressing and restorative. It acts like magic, commencing at the very roots, removes dandruff and all humors from the scalp, and never fails to restore gray or faded hair to the original color, and the soft, rich and glossy appearance of youth. By its occasional use falling of the hair is immediately checked, and a luxuriant and beautiful growth of young hair induced. The exquisite perfume and the purity of its composition are highly appreciated, and as it is not a dye and does not stain the skin or clothing, it is a growing favorite of the toilet table everywhere. Buy a bottle from your druggist, A. J. Roberts, Janesville, Wis., and test its merits.

**Itching Piles.**

The symptoms are moisture, like perspiration intense itching, increased by scratching, very distressing, particularly at night as if pin worms were crawling in and about the rectum, the private parts are sometimes affected; if allowed to continue, very serious results may follow. Dr. Swayne's All Healing Ointment is a pleasant cure.

**HOME CURES.** We were great sufferers from Itching Piles, the symptoms were as above described; the use of Swayne's Ointment in a short time made a perfect cure.
